Sr. Public Health Engineer
Putnam Co. Dept. of Health
110 Old Route Six Center
Carmel, New York 10512

Re: Mahopac Beach Sewer Connection

Dear Mr. Budzinski:

This letter confirms and an agreement currently exists between Carmel Sewer District #1 and Michael A. Barile and Tommy A. Boniello to provide sewer service to the Mahopac Beach property of Michael Barile and Tommy Boniello located on Route 6N.

This agreement is contingent upon Mr. Barile and Mr. Boniello, at their sole cost and expense, obtaining all necessary approvals for the construction of the sewer line from their property to the nearest manhole within the boundaries of CSD #1. Specifically, they must obtain all necessary permits and approvals from New York State DOT, DEC and New York City DEP.

It is my understanding that you have already been furnished with a copy of this agreement. CSD #1 has no involvement in the application of approval of plans for a wastewater disposal system that is currently pending before you.

Yours truly,

Richard T. Othmer
Supervisor, Town of Carmel
